Re: Alternative Daily Cover

Dear Mr. Larry Frost

Please accept this letter as my formal request for approval to use Alternative Daily Cover in the daily operation of the Lincoln County Landfill. Lincoln County's plan for Alternative Daily Cover is to use a Spray-applied Mortar Coating (SMC) with a hydro seeder that the county has purchased to spray Posi-Shell material on the working face of the MSW trash for daily cover. Lincoln County Solid Waste Department may also later in operation implement the latex paint or water based into the Posi-shell material as filler as other landfills in North Carolina have done. Lincoln County Solid Waste Department understands the usage criteria with weather conditions and guidelines.

Sincerely,

David M. Bivins
Solid Waste Manager
Lincoln County Solid Waste
